ABOUT CONGRESS

Our Society's international meetings are organized every two years, and in 2023, the meeting will be held in Toruń, Nicolaus Copernicus city, in Poland. We are preparing an excellent scientific program with seven plenary lectures, ten symposia, and special lectures.

Besides the interesting scientific program, we are preparing an exciting social program. We hope that our meeting will be a great chance to meet neuroscientists from many countries in Europe and from other continents.
